**TA-TAS® BRAND CLOTHING WANTS YOU TO HELP “SAVE THE TA-TAS”  
Put the “Fun In the Fight” - With Unique T-Shirt**

They say that laughter is the best medicine, a sentiment that’s heartily endorsed by innovative apparel company ta-tas® Brand Clothing with its new “Save the ta-tas T-shirt. Now you can really make people “pause for the cause” to support breast cancer research — and with a message like “Save the ta-tas,” you’re sure to get some double takes and put smiles on the faces of passersby.

ta-tas may have sassy, lighthearted messages on its apparel, but the company is absolutely serious about fighting to win in this important issue. That’s why ta-tas donates five percent of *each sale* to organizations like the Breast Cancer Research Foundation, so you can proudly wear this shirt while out shopping with friends, supporting a family member or at a charity event — and know that you are actively participating in the fight to find a cure — and look fabulous doing it!

The comfortable cotton T-shirt and tank top are available in black, pink, or white and feature the high impact message written across the chest with ta-tas’ signature logo, proudly integrating the Breast Cancer Awareness pink ribbon right in the center.

Julia Fikse, ta-tas designer and creator, has been thanked by numerous women and families of victims and survivors who have shared testimonials of hope and humor generated by her unique designs. Some of the hottest celebrities are embracing these playful T-shirts, as well. The “Save the ta-tas” T-shirt and tank have already started being sighted on A-listers like Kate Beckinsale and Fran Drescher.

Now you can make a statement while making a difference, and help raise both awareness and funds for the fight against a disease that affects hundreds of thousands of women worldwide.
